AMCAT

Employability Report

for Amod Kumar Kunwar

Assessment Date: 09 September 2018

A personalized guide to know your AMCAT employability scores, job fit in various roles and get tips to improve employability.

Amod Kumar Kunwar with AMCAT ID: 130012082654073 for successfully completing AMCAT on 09 September 2018

According to his/her AMCAT scores, Amod Kumar Kunwar is employable for the following job profiles/sectors and is strongly recommended to be considered for job opportunities in these profiles/sectors:

Technical Operations

Associate-ITES/BPO

Associate- ITES Operations (Hardware and Networking)

To authenticate this certificate and to access detailed scores of the candidate, please visit www.myamcat.com/talentsearch/

1. This is a computer generated certificate and does not require a signature. 2. You can quote the statements mentioned on this certificate on your resume or other public documents. The ideal way to quote is "According to my AMCAT score, I am employable for the following profiles: Associate-ITES/BPO, Associate-ITES Operations (Hardware and Networking).

Content

Chapter I. READING YOUR REPORT

You must be having a lot of questions about your skills, personality and employability. **AMCAT Employability Report** will not only help answer these questions, but will become your guide for deciding next steps on your career path. It will tell you what to study, what interviews to prepare for and how to prepare. Refer to the following tips to understand how to make this report a means to get closer to your dream job.

- Start by referring to the 'YOUR AMCAT SCORE SUMMARY' chapter of your report. This chapter has all the key highlights for you. You will get to know where you stand nationally in different AMCAT modules, a snapshot of your personality and your employability in different job profiles and sectors. The summary chapter is the key. You should understand everything in it to know where you stand in the job market. For each section in the summary chapter, we mention the chapter having additional information about the section. Wherever you are unable to understand or want more information, refer to the respective chapter.
- The chapter 'Your Profile and Industry Fit' is very important. The following tips will help you use it to make an action plan for next few months:
 - a. For profiles where your employability is high, you should start refreshing your knowledge for an interview for them. You may soon get interview calls for these.
 - b. You might find certain profiles where you have high employability, but are not the ones that interest you or you know much about. We will seriously recommend that you explore more about these profiles, find information about them and re-evaluate your interest. These can provide you an interesting career path which you may not have considered till now.
 - c. For those profiles where your employability is medium/low but interest you, understand your skill gap and start studying to improve on these areas. You may get an interview call for some of these, but you will have to work really hard to clear the interview. To increase your chances to get interview calls in such profiles, you should improve on your skills and re-take AMCAT after three months. The modules you should concentrate on for a profile is mentioned in the **chapter V**. A better AMCAT score can improve your interview chance in these profiles.
- Finally, this report can guide you on how to improve your weak areas. Refer to **Chapter III** to know within each module, which sub-modules you need to particularly improve. Work on these. Refer to **Chapter VI** to not only get helpful references to improve your weak areas, but also get a time schedule you can use.

Your Action Plan

		INTEREST	
		HIGH	MEDIUM/LOW
oyability	HIGH	Prepare for interviews for these profiles. Check out references from Chapter VI.	Gather more information about profiles and re-evaluate your interest. If you find that they may interest you, start preparing for their interviews.
Emplo	MEDIUM/LOW	Start working to improve on AMCAT modules required for the profile. Re-take AMCAT after three months to improve your chances of interview opportunity.	Low priority at this point.

We hope you will immediately start working on this action plan to succeed in interviews and position yourself to get interview calls for your profiles of interest. Best of luck!

Chapter II. YOUR AMCAT SCORES

Amod Kumar Kunwar

Your AMCAT Score

 AMCAT an intelligent adaptive test. Your AMCAT score is not equal to the number of questions answered correctly. The score is calculated by an advanced statistical engine, which takes into consideration questions difficulty, discrimination, guess probability and several other factors.

AMCAT ID: 130012082654073

- The bar is a representation of your performance in the module. The tick in each bar represents the 50 percentile score of all candidates of your category.
- Score of one module should not be compared with the score of another, but should be compared against the 50 percentile point of that module.
- Your score is on a scale of 100 to 900 with 100 being the minimum and 900 maximum

Your Personality Scores

- Extraversion (E) An extroverted, talkative, socially confident person
- Conscientiousness (C) An organized, responsible, hardworking & achievement oriented person
- Emotional Stability (ES) A calm, happy, undisturbed & confident person
- Openness To experience (O) A broad-minded, unconventional, imaginative person with rich artistic sensitivity
- Agreeableness (A) A kind, sympathetic, cooperative & warm person
- Polychronicity (P)A multitasker

Your Job Fit

Chapter III. MODULE FEEDBACK

This Chapter provides a detailed feedback about your performance in each AMCAT module. It shall provide your AMCAT score and more importantly your AMCAT percentile, which shall tell you where you stand in the modules across all job-seekers across the Nation with similar education.

Furthermore, the chapter goes into details of which sub-module within a module did you perform well in and where you lacked. It will suggest where to put more effort and also provide tips on what kind of effort you should put in.

SECTION I: YOUR AMCAT REPORT CARD

Module	Score	Grade	National Percentile
English Comprehension	405	С	24%
Quantitative Ability (Advanced)	520	В	59%
Logical Ability	505	В	65%
Computer Programming	585	Α	94%
Automata	0 out of 100	Programming Ab of Programming Pro out 0	5 actices Score: 0

- Overall percentile is your percentile amongst all the candidates (belonging to the same degree as yours) tested by us nationally till now. If your overall percentile for a module is NA, it means we do not calculate percentile for that module
- If your reported score is -1, it means you have attempted less than the minimum number of questions required in that section. In such a case no score is reported. A score of -2 means you did not attempt the module. NA: Not Available
- Grade Information: grade tells you where you stand amongst all the people who have taken AMCAT till now.
 A: First 33% B: Second 33% C: Last 34%

SECTION II: YOUR PERFORMANCE CHAKRA

Our Performance Chakra provides you with a bird's-eye view of your performance in different sections of modules you have attempted. The three levels indicate your performance as poor, average or good.

Performance Chakra: You have done really well in sub-modules marked in green, average in those in yellow and poorly in those in pink. If a section is without a color, it means you did not answer enough questions in the subsection to get an evaluation in it.

SECTION III: YOUR PERSONALIZED FEEDBACK

This section provides you a personalized feedback automatically generated by our artificial intelligence engine. Based on your strong and weak areas in a module, it provides you with suggestions and tips to improve yourself.

English Comprehension

You need to work hard on your English Comprehension skills. According to our analysis, you have basic understanding of English language structure but you need to develop a habit of reading and communicating in English to widen your vocabulary and improve your comprehension ability. You seem to have difficulty in understanding written English. Having a vast vocabulary is crucial in order to understand complex English articles. Skills in reading comprehension and vocabulary go a long way in improving one's overall ability in English. Make sure you read a lot of articles, underline hard words, find and learn the meaning of the underlined words and, last but not the least, summarize the article in your own words.

Tips / Suggestions for You

- Try to play Vocabulary games like Scrabble, Crossword, etc.
- Improve your reading speed. Get into a habit on reading English books before sleeping.
- Read small stories (or articles) and rewrite them in your own words. Get them checked by someone with good English.

Quantitative Ability (Advanced)

Your performance in Quantitative Ability (Advanced) is satisfactory. Our analysis indicates that while your understanding in applied mathematics (word problems) and advanced areas (such as permutation-combination and probability) is fair, your ability to solve problems from basic concepts such as HCF, LCM, divisibility, etc is not satisfactory. You need to improve your basic concepts in order to solve more complex questions. Start with the basics, move on to understand the logic behind formulae; go through some example problems and then regularly solve questions on your own. Solving even five questions a day would help you in improving your overall quantitative aptitude. You have the potential to excel in this section. You just need to work harder

Tips / Suggestions for You

- You should practice quantitative ability questions under time constraint. This will also increase your speed.
- Learn all the critical definitions, formulae and concepts that appear in common questions.

Logical Ability

Your performance in Logical Ability is average. You are able to understand statements, draw inferences based on them and are also able to spot patterns. Good job! But you are still not perfect. In order to master this section, practice difficult questions. Though, initially, you may take a lot of time to solve such questions, but in the long run, you would end up sharpening your Logical Ability skills tremendously.

Tips / Suggestions for You

- Deductive reasoning questions are best solved using Venn diagrams. You can use your tenth standard book (topic: set theory) to understand them.
- Abductive reasoning refers to being able to infer a course of action, derive a conclusion, infer underlying assumptions, etc. to a given set of statements. These questions test your ability to take decisions based on information in a real-world scenario. You should read analytical/business magazines and newspapers to improve your abductive reasoning.

Computer Programming

Your performance in Computer Programming is amongst the top. You have a phenomenal understanding of all the different areas of Programming and Computer Science. With your level of ability, you can afford to learn number of more programming languages and algorithms. This would also show greatly on your CV.

SECTION IV: YOUR AUTOMATA FEEDBACK

This chapter provides you the detail of your performance in Automata modules.

Report Details

Report Betails				
Total Problems	Total Time			
2	75 mins			

Scores

Total Score This is the measure of overall programming performance of the candidate.			0 out of 100
Programming Ability Score This score measures the ability to write correct, thorough and efficient code for a problem.	0 out of 5	Programming Practices Score This score measures the use of best practices in programming, program's robustness, readability, security etc.	0 out of 4

Problem 10 Results

Scores	Code Execution Summary		
Programming Ability Score Programming Practices Score	N.A. N.A.	Language Code Compilation Compiler Warnings Generated Test Cases Passed	: Java . Compilation . Error . N.A N.A.
Test Case Execution Results(Cases Passed/ Tot Cases)	al	Structural Vu and Errors	Inerabilities
Basic Cases They demonstrate the primary logic of the problem. They encompass situations which would be seen on an average and do not reveal situations which need extra checks/handles to be placed on the logic. Advanced Cases N.A. They contain pathological input conditions which would attempt to break codes which have incorrect / semi-correct implementations of the correct logic or incorrect / semi-correct formulation of the logic. Boundary Cases N.A. They specifically confirm whether the code runs successfully on the extreme ends of the domain of inputs. Total (Cases Passed/ Total Cases) N.A.		N.A.	

Average-Case Time Complexity Detected	Execution Statistics	
	Time Taken to Submit (hr:min:sec) : 00:13:49	
	Number of compiles : 2 attempts made	
The complexity information cannot be generated. The submitted source code is incorrect and failed to execute.	Number of compilation attempts : 0 witnessing a successful compile	
This problem can be ideally solved in O(N) time	Number of compile attempts : 0 witnessing a time-out	
*N represents the number of elements in the input linked list *Average Case Time Complexity is the order of performance of the algorithm given a random set of inputs. This complexity is measured here using the Big-O asymptotic notation.	Number of compile attempts : 0 witnessing runtime errors	
	Avg. no. of cases passed in each : 0 % compile	
	Avg. time taken between each compile (hr:min:sec)	

Problem 22 Results

	Avg. no. of cases passed in each : 0 % compile
	Avg. time taken between each compile (hr:min:sec)

Chapter IV. YOUR PERSONALITY

The purpose of this Chapter is to provide you an analysis of your personality and give you an insight in your behavioral aspects. The analysis done is on the basis of your responses to AMPI (Aspiring Minds Personality Inventory). AMPI is a reliable and valid personality test based on global standards.

Different sub-sections of this chapter are especially designed to provide a broad view on numerous aspects related to your personality. This Chapter contains the following main sections:

- Your Personality Score
- Description of your personality
- Your Personality type.

A word of caution: Trait scores of HIGH or LOW may not be equated to being GOOD or BAD. There are no good or bad personalities. Secondly, this test or Chapter does not measure or indicate any psychological disorder or otherwise. Every individual has a unique personality and this report provides an indication of the same. Candidates with different personality combinations do well in handling different kind of situations and perform well in different jobs. There is no absolute metric personality. Lastly, this Chapter is best interpreted by a trained psychologist.

SECTION I: YOUR PERSONALITY SCORES

Your personality assessment shall be provided on the following traits:

These traits are based on the Big Five Model of personality, now globally accepted as the most scientific and validated model of personality.

The table and figure below shows your Z-score and percentile in each trait. Each bar represents your Z-score in a personality trait.

Trait	Region	Percentile	Z- score
Extraversion	High	68%	0.46
Conscientiousness	High	88%	1.16
Emotional Stability	High	99%	2.28
Openness to Experience	High	91%	1.3
Agreeableness	Medium	63%	0.34
Polychronicity	High	99%	2.3

Scores and Their Interpretation:

- a. For each trait, you have been classified as being LOW, MEDIUM or HIGH. It should be noted that this classification is not an absolute one, but a relative one. These classifications are based on our national norms on a sample of entry-level job aspirants. For instance, a person, who is high on Extraversion, is as extraverted as the top 33% people in our norm group. He/she may not still be extraverted enough for a given role or a standard set by another individual.
- b. A low percentile does not mean bad performance and high percentile does not mean good performance, as there is no concept of performance in personality.
- c. For each trait, a Z-score is provided. The Z-score measures the number of standard deviations the score is away from mean of norm. A Z-score more than +0.44 means the candidate is in the top 33%, whereas a Z-score of less than -0.44 represents the candidate is in the lowest 33%.
- d. This report is best interpreted by a psychologist. The candidate is strongly advised not to take any action on the basis of this report without referring to a well-qualified psychologist.

SECTION II: DESCRIPTION OF YOUR PERSONALITY

This section provides you a detailed description of your personality traits.

Your score indicates you are **High** on Extraversion.

Extraversion is defined as one's inclination towards the outer world. Individuals with high extraversion can be characterized as social, talkative and assertive. They like the company of people and enjoy social gatherings. They need external stimulation and get energized while interacting with people. They have lots of friends and thrive for making new social contacts. They like to work in groups and prefer to lead others.

You like to engage with the external world, be among people and interact with them. You are assertive of your view and prefer to lead rather than follow. You seek lot of excitement and like to engage in high energy and thrilling activities. You enjoy social gatherings and feel more comfortable being surrounded by people.

Your score indicates you are **High** on Conscientiousness.

Conscientiousness has been called by some psychologists as the Will to Achieve. It is generally seen to have two components, one of striving for achievement and the other of dependability. The latter is characterized by being thorough, organized and responsible. The former is related to volitional variables such as hardwork,

perseverance and orientation towards achievement.

You are punctual, well organized and believe in self-discipline. You like everything in order and follow processes, plans and rules. You are a perfectionist, pay good attention to detail and work methodically to achieve your goals. You can be relied upon to get things done well. You are well-motivated, determined and have a good sense of direction in life.

Emotional Stability

Your score indicates you are **High** on Emotional Stability.

Emotional stability refers to being in a state of psychological steadiness. Emotionally stable people are even tempered and relaxed and they tend to have higher emotional intelligence. On the other hand, people low on emotional stability are likely to experience negative emotions like anxiety, depression, embarrassment and insecurity on small stimuli from the environment. These people have a tendency to exaggerate minor mutations.

You are generally calm and free of worry. You do not get upset or frustrated by the behavior of others and are considered thick-skinned and secure. You rarely feel conscious or embarrassed in situations. You have high satisfaction level and are happy from your life. You have control over your thoughts. You are mentally tough and can handle tough situation easily.

Openness to Experience

Your score indicates you are **High** on Openness to Experience.

Openness to Experience is associated with being broad-minded, unconventional, having a rich artistic sensitivity and being curious and imaginative. This has been a trait hard to identify and has been called as intellect, culture or openness to experience by various psychometricians. Open individuals are creative, willing to challenge authority and entertain new ideas. They have intuitive thinking and can adapt to change easily. They are progressive and prefer to explore new ways and ideas of doing things.

You have a strong aesthetic sense, appreciate beauty and experience varied emotions and feelings. You have broad interests, are keen to try out different things and have a rich imagination. You are highly creative and self-confident, and can visualize things easily.

Agreeableness

Your score indicates you are **Medium** on Agreeableness.

Agreeableness refers to social conformity, friendliness, compliance and altruism. Agreeable people are sympathetic to others, help others and trust others to help them too in return. They are popular amongst their colleagues and do not believe in manipulating people. Agreeable people are good for customer relationship profiles and work well in teams.

You are generally warm and agreeable, but also give as much importance to self-interest as most people do. You understand others needs and want to help people, but not willing to give up yourself for them. At times, you can be stubborn and competitive.

Polychronicity

Your score indicates you are **High** on Polychronicity.

The Multi-tasking trait is defined as the extent to which the person prefers to engage in more than one tasks simultaneously and believes that this is a productive work style. Individuals high on this trait shall like to engage in multiple activities at a given time, whereas those low shall prefer to just do one thing at a time. This trait measures the personality disposition of a person to multi-task and does not measure the ability to do so.

You have a high score on the multi-tasking scale. This shows that you prefer to do multiple tasks simultaneously, switching in between as per need basis. Rather than doing a single task or project, you shall like to do several of them together. Your working approach shall be to make some progress on multiple tasks than completing one task to the fullest and then moving to the next task. You will like to work in an environment which involves multitasking and shall not be put off by that. You believe this is an efficient way of doing things.

SECTION III: YOUR PERSONALITY TYPE

Based on your personality traits, your personality type is determined as below.

You are a "Inspirer"
rod are a mopiler

You are introspective, value-oriented, inspiring, social and extremely expressive. You have an unusually wide range of skills and talent. You are good at doing most of the things which interest you. You are a natural advocate, attracting people to yourself and you are gifted with excellent people skills, warmth, energy and positivity. Your enthusiasm lends you the ability to inspire and motivate others.

You dislike routine tasks and get easily frustrated if a project requires great deal of focus on detail and maintenance. You work best in situations where you have a lot of flexibility and are able to use your creativity and skills. You are ready to take risks. You often appear to be over positive and can appear insincere.

Chapter V. YOUR INDUSTRY AND JOB FIT

This chapter explains your job fit in various profiles in different industry sectors.

AMCAT is today used by leading corporations across the country to look for the right talent. Based our learning's from working with these corporates, we have developed statistical models of what scores make a candidate succeed in a given job profile. Based on your AMCAT scores and our statistical model, we can predict which job profiles you best fit in. We can also find out the profiles for which you aren't currently ready and what subjects you need to study to become employable in them.

This section shall provide you information about your employability in different job profiles and what all you need to improve to become more job fit. It will also provide a glimpse in the score cut-offs for different profiles.

Section I: YOUR JOB FIT

Job Profile	Your chance of selection for these job profiles.	Job profile criteria and areas to work on for improving you		
		Engineering/IT Jobs		
Software Engineer- IT Services	Low	These companies are basically looking for good English and Logical skills with average Quantitative ability. You have to work hard in English Comprehension.		
Software Engineer- IT Product	Low	These companies are basically looking for good English, Programming and Logical skills with average Quantitative ability. You have to work hard in English Comprehension.		
	Technical Operations			
Associate- ITES/BPO	High	These companies look for candidates proficient in English with average Logical and Quantitative abilities.		
Associate- ITES Operations (Hardware and Networking)	High	These companies are basically looking for candidates with good English and average Logical abilities.		
		Non-technical Jobs		
Business Analyst	Medium	These companies look for candidates having proficiency in English with good Quantitative and Reasoning abilities. You have to work hard in English Comprehension.		
Creative Content Developer	Low	These companies look for candidate with proficiency in English with good reasoning abilities. You have to work hard in English Comprehension.		
Technical Content Developer	Low	These companies look for candidates to have good knowledge of the domain in they would be writing content. Proficiency in the English language is a must wit h decent Quant and reasoning skills. You have to work hard in English Comprehension.		

Section II: SELECTION COMPARATOR

The graphs below show the minimum cut-off in each module every job profile (marked with solid blue lines). It also shows your AMCAT score, which is represented by a dot and connected through dotted lines. You can compare different job profiles cutoffs with your score to get an idea about how well or poorly you do with respect to each module for a given profile.

^{*} For some profiles personality scores have also been considered.

We hope you have read this Chapter seriously and plan to take next steps based on your interest and employability for different job profiles. We recommend the following action plan:

		INTEREST	
		HIGH	MEDIUM/LOW
Employability	нібн	Prepare for interviews for these profiles. Check out references from Chapter VI.	Gather more information about profiles and re-evaluate your interest. If you find that they may interest you, start preparing for their interviews.
	MEDIUM/LOW	Start working to improve on AMCAT modules required for the profile. Re-take AMCAT after three months to improve your chances of interview opportunity.	Low priority at this point.

Work hard and you will soon be able to crack a job in a profile of your interest. The next chapter will provide some tips to you to improve yourself in different modules.

Chapter VI. IMPROVE YOUR EMPLOYABILITY

To be able to improve your employability you need to concentrate on improving your weak areas while maintaining your strengths. This chapter shall guide you to resources and a plan to do this. Based on your weak areas as enumerated in Chapter III and improvement areas for specific job profiles(discussed in Chapter V), you should take next steps to improve your employability. To do this effectively you need to pick the right books/resources/training for each area and spend a balanced amount of time on across subjects.

Our intelligent feedback system, based on your weaknesses and strengths has picked material to refer to and created a study time schedule. Both when used effectively can help you improve your employability substantially.

SECTION I: REFERENCES

Based on your AMCAT report, we have picked authoritative resources to help you improve. The references are custom generated for you according to your performance in AMCAT. These resources are free to access over the internet and should come handy in your endeavor to improve your employability.

Subjects	Books/Links
Vocabulary	The Free Dictionary - http://www.thefreedictionary.com Word Power Made Easy by Normal Lewis
Comprehension	The Hindu Newspaper - http://www.thehindu.com/ Speed up your reading comprehension - http://www.aspiringminds.in/referenceLinks.php?file=rcs-techn Reading Strategies - http://www.aspiringminds.in/referenceLinks.php?file=rcs-strategy
Basic Mathematics	Elementary Mathematics - http://www.aspiringminds.in/referenceLinks.php?file=el-arithmetic
Deductive Reasoning	Deductive Reasoning Applications - http://www.aspiringminds.in/referenceLinks.php?
Abductive Reasoning	Wikipedia article on Abductive Reasoning - http://en.wikipedia.org/wiki/Abductive_reasoning Abductive Inference - http://www.youtube.com/watch?v=kluoW1a0_3Q

SECTION II: SUGGESTED TIME SCHEDULE

Based on your performance, we have come up with a time schedule. By following this time schedule, you can ensure that you will continue to maintain your strong modules, while improve substantially in those that are lacking.

The pie chart below, tells you about how much time you should ideally be spending on different modules. Always remember, it is required to spend a fixed amount of time on all modules even though you might be strong in them. Perfection is said to come from continuous practice.

And for the modules in which you might be lagging a bit, there is always time for improvement. So just put your chin down and start working on them from today. It has to start somewhere, it has to start sometime. What better place than here, what better time than now?

We also provide you a time split for each section in the module. Based on your performance, we automatically adjust times so that you spend more time on weak sub-sections in a module and less in others. This is contrary to what students generally do! They keep doing questions which they are able to solve and do not attempt those which they find tough. To improve your weak areas, you just need to do the opposite. Spend more time preparing for weak areas, even if it takes more time to learn and practice it.

We hope that your performance analysis has helped you understand your strengths and weaknesses. Let us now understand what your next steps should be.

Chapter VII. NEXT STEP

Your AMCAT experience is still not over!

Assessment is a continuous process which does not end with just an evaluation. In fact this is just the beginning. You need to work hard to succeed in tests and interviews of companies and finally do wonders at the job.

During the next three weeks, you will be automatically enrolled in the AMCAT Job-Readiness Capsule to help you get closer to your dream company interview. We will interact with you on a regular basis via emails to guide you through the capsule and check your progress. We will send you SMSes with helpful tips, guidance and employability updates for the next 3 months. Make sure you not only read these SMSes, but also do the things they recommend. We will also guide you in making your resume and help you perform best at an interview. Make sure you regularly log into your myamcat.com account to make maximum use of these resources and tips.

Also, to make sure you receive the best job opportunities matching your profile, you need to keep your profile at myamcat.com upto date with your most recent information and contact details. Do not compromise here, lest you miss a desired interview opportunity!

We need your feedback

Throughout this report, we have provided you with feedback. We also look for your feedback!

It is our endeavor to continuously improve ourselves so that the user has a great test experience. Please contact us in case you have any feedback about the test or the test experience in general. Your valuable comments will help us in fixing the glitches, if any, in our system.

In case of any query, feedback or suggestion please log in to your myAMCAT account and fill up the form at www.myamcat.com/need-help.

Once upon a time a very strong woodcutter asked for a job with a timber merchant, and he got it.

The salary was really good and so were the work conditions. For that reason, the woodcutter was determined to do his best. His boss gave him an axe and showed him the area where he was supposed to work. The first day, the woodcutter brought 18 trees "Congratulations," the boss said. "Go on that way!"

Very motivated by the boss' words, the woodcutter tried harder the next day, but could bring 15 trees only.

The third day he tried even harder, but could bring 10 trees only. Day after day he was bringing less and less trees. "I must be losing my strength", the woodcutter thought.

He went to the boss and apologized, saying that he could not understand what was going on.

"When was the last time you sharpened your axe?" the boss asked. "Sharpen? I had no time to sharpen my axe. I have been very busy trying to cut trees..."
